

THE  
**VOTING**  
GAME

## Overview

Every time you play The Voting Game you'll find out what your friends really think. Winning? It's possible, but not important.

## What's in the Box

**PLAYER ID CARDS** (10) used to identify each player.

**VOTING CARDS** (90) used for placing votes.

Players get one of every number except their own.

**QUESTION CARDS** (200) the questions that are voted on in each round.

## Set Up

**ASSIGN** Each player gets one Player ID card and places it in front of them. This identifies each player as a number for the remainder of the game.

**DEAL** Each player gets a deck of numbered voting cards (1-10) with every number except the one on their player ID card.

## Playing the Game

**QUESTION** Draw a black Question card and read it out loud. The player who most recently called their mother is the first question reader.

If the Question card has a blank space then the reader picks something to fill it in.

**VOTE** Each player uses their white voting cards to vote for the player who is the answer to the question. Vote anonymously by placing the voting card face down in a pile. Everyone must vote, including the reader.

**REVEAL** The player who read the question collects all the voting cards and reveals them to the group one at a time.

Players receiving votes guess who voted for them. Players get one guess for every vote they received. Whoever is to the left of the question reader guesses first.

**SCORE** The player that receives the most votes wins the round and keeps the Question card. In the event of a tie, the player who read the question decides the winner.

**REPEAT** The player to the left of the reader draws a new Question card and asks the next question.

## Winning the Game

The first player to collect 6 question cards wins the game.

## Alternate Ways to Win

**GUESS THE VOTE** Each player guesses who voted for them. Players get one guess for every vote they received. A point is scored for each correct guess. First player to receive 25 points wins!

**MAJORITY RULE** When a player wins the round by receiving the most votes, each player that voted for them claims their vote and receives a point. First player to receive 10 points wins!

**OWN IT** The player that wins the game must post a picture of all the question cards they won to the social network of the host's choice. #TheVotingGame

**FOR FUN** A version where the only point is to have a good time.

## House Rules

**DRINK** When guessing who voted for you, correct guesses mean that THEY drink and incorrect guesses mean YOU drink. (Ages 21+)

**ORIGINALS ONLY** Keep the Question card deck off to the side and only allow original questions.

**DRAW 3** Draw three Question cards when it's your turn to ask a question. Pick your favorite to read out loud. Return the remaining two cards to the bottom of the deck.

**ABSENT** Assign any extra Player ID cards to people of your choice – public figures or mutual friends. No one has to know.

**SHOTS** When someone receives 100% of the vote (not counting their vote) they must take a shot. (Ages 21+)

**SELFIE** Give players a voting card with their own number on it. You can vote for yourself! (9 players max can play this version.)

**STRAIGHT UP** Votes aren't anonymous anymore. Count to 3 and everyone reveals their votes at the same time.

**ON THE SPOT** When it's your turn to draw a Question card, you can make up your own instead.

**WARNING: THIS GAME IS NOT INTENDED FOR ACCOUNTANTS AND OTHERS WITHOUT A PERSONALITY.**
