

# PICTURES ORANGE

an expansion for Pictures by Daniela and Christian Stöhr for 3-6 players

## Rules

### Contents:

- **Set 1:**  
16 acrylic tiles and  
1 picture frame  
(two-sided)
- **Set 2:**  
2 pieces of felt and  
5 clothes pegs
- 55 photo cards  
• 1 notepad  
• 1 rule sheet

### Except for the following additions, the original rules for Pictures apply:

- The two new sets are added to the original sets. Before each game, the players **choose which 5 sets** they will use during the game.
- Use the two new sets as follows (players decide if they want to use either or both variants before the start of the game):

#### Acrylic tiles in a frame

Place as many of the acrylic tiles as you deem necessary completely within the square frame (no tile may touch the frame). No tile may rest in part or completely on another tile. (Same rule applies to the variants.)

Variant 1: Place as many of the acrylic tiles as you deem necessary completely within the round frame (no tile may touch the frame).

Variant 2: Place all 16 acrylic tiles within the square frame. You may flip them to their white side.

#### Clothes pegs and felt

You can use as many parts as you wish, in any way you wish. Use one Pictures plate from the base game, to indicate the bottom of the image.

Variant: You can use as many parts as you wish, but must clinch the clothes pegs on one another or on the pieces of felt.

### Examples

### Play with 6 players

Use 6 sets of components and play over 6 rounds. After 3 rounds remove all sixteen photo cards from the grid and replace them with new photo cards. Return all coordinate tokens to the cloth bag.

As an alternative you can replace the photo cards that have been pictured with new cards from the stack and return all coordinates tokens to the bag in each round.
