POLYSSIMO

## Jeu de patience

De 7 à 99 ans

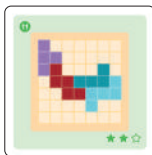

1 joueur

1 base, 11 pièces en bois (6 tétraminoes et 5 pentaminoes), 30 cartes défis (niveaux de difficulté croissant)

★ Facile

★★ Moyen

★★★ Difficile

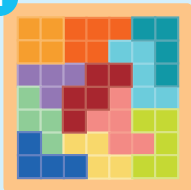

**But du jeu :** reconstituez le carré en utilisant toutes les pièces.

**Déroulement du jeu :** Posez les 11 pièces et la base sur la table et posez les cartes défis à côté. Tirez une carte défi et positionnez les pièces imposées sur la base comme indiqué sur la carte. Tentez alors de placer les pièces restantes, faces rainurées visibles, afin de remplir la base sans la dépasser. Pour chaque défi, une seule combinaison possible !

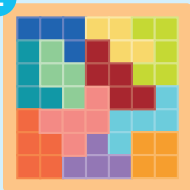

*Solutions en fin de livret.*
